GAS TECH
INTERNATIONAL LIMITED

DOC: **GTIL/OHS/POLICY:11**

HEALTH, SAFETY, AND ENVIRONMENT STATEMENT OF INTENT.

At Gas Tech International's main station, we are fully dedicated to maintaining the highest standards of Health, Safety, and Environment (HSE) during the compression process and the distribution of CNG from the main station to the satellite stations, as well as the Auto NGV distributions to customers by embedding HSE policies into our daily business operations. We focus on the health, safety, and security of our employees, suppliers, contractors, and stakeholders, along with the protection of our environment's integrity.

At Gas Tech International, we are committed to:

Prevent accidents, injuries, and work-related health issues by implementing adequate controls to manage health and safety risks. Aim to eliminate or reduce risks as much as reasonably practical, following industry best practices.

Ensuring compliance with relevant HSE regulations, standards, and industry best practices, including codes of practice, performance standards, programs, and management systems, while providing employees with the necessary information, instruction, and training to meet these requirements.

Ensure, as reasonably practicable, a safe arrangement for emergency management against any risk to employees, suppliers, contractors, stakeholders, public, or other persons who may be affected by Gas Tech International's operations.

Integrating HSE into business decisions and engaging in continuous improvements by setting expectations and objectives, and reviewing, monitoring, and auditing performance.

Managing contractors from selection through performance and evaluation to ensure compliance with the Company's standards, programs, and management systems.

Engaging in Environmental Sustainability, focusing on sustainable development, reducing our supply chain resource intensity related to greenhouse gas emissions, the use of renewable energy, and circularity provisions, including waste reduction or elimination.

Develop and implement a training program to enhance the health and safety skills and knowledge of employees, and disseminate health and safety information to all employees, contractors, and other relevant stakeholders in the workplace.

Engaging our relevant stakeholders through the involvement and consultation with employees, communities in which we operate, governmental authorities, contractors, customers, and any other interested parties.

We are committed to driving continuous improvement by regularly monitoring, reporting, and evaluating our HSE performance.

E-Signed:
Managing Director,
Shadi Karameh
